Mrs Barbara Buick

Dear Barbara:

Re PESTFREE UNITS

Just a note to let you know that since we have purchased and installed the Pestfree units in our factory and office areas, we have not seen any rodents or cockroaches in these areas. We are monitoring the effect of these units constantly as, being a paper converter we have a very large stock of finished paper product and raw materials, and we cannot afford to relax our vigilance. Rats and mice are definitely not welcome in our stores as they can cause great damage with resulting financial losses.

We would definitely replace these units if and when necessary and have no hesitation in recommending them for the uses as advertised in your brochures.

Thank you for your assistance and co-operation.

Yours faithfully

A handwritten signature in black ink, appearing to read 'B. Sher'.
